Decimal Machin List
for all Sections

This set of 'Decimal Machin' pages for the *New Illustrated Catalogue of G.B. Perfins* ('NIC' for short) has been compiled from the fine detail from Barrie Williamson's Machin Study, along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list. Each list of dies and stamps for each Catalogue Section is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' (as appropriate) which are listed in the main body of the 'NIC'. For simplicity they are often recorded in the 'NIC' as 'various'.

Table showing the current status of the Decimal Machins - Correct to **31st March 2016**.

Machin Decimal Issues.

The following list of **92 dies** and **1,395 stamps** is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **31st March 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

This list is correct to 31st March 2016.

Machin Decimal Issues.

The following list of **35 dies** and **488 stamps** is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **31st March 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

This list is correct to 31st March 2016.

Machin Decimal Issues.

The following list of **32 dies** and **448 stamps** is an amplification of the Machin issues 'W' and 'W(ell)' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **31st March 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

This list is correct to 31st March 2016.

Machin Decimal Issues.

The following list of **47 dies** and **805 stamps** is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **31st March 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

This list is correct to 31st March 2016.

Machin Decimal Issues.

The following list of **30 dies** and **400 stamps** is an amplification of the Machin issues 'W', 'W(ell)', and 'Z' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **31st March 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

This list is correct to 31st March 2016.

Machin Decimal Issues.

The following list of **1 die** and **1 stamp** is an amplification of the Machin issues 'W' and 'W(ell)' listed in the main body of the catalogue, which for simplicity are often recorded simply as 'various'. The list comprises the fine detail from **Barrie Williamson's Machin Study** for these issues (correct to **31st March 2016**), along with any unambiguous denomination details sent in to the Catalogue Editor over the years. The 'codes' used (i.e. 4b, 10a, 13½ etc) are those used by Barrie Williamson in his list.

This list is correct to 31st March 2016.
